

General Meeting 20 December 1962

Lakehead Amateur Radio Club

This meeting, the last one of the year, was called to order at 8:05 pm.

The minutes being read first, were adopted as read by Doug Hall - VE3TB and seconded by Fred Lawrence - VE3EET.

The Airade Station and Weather Bureau Station visit was discussed next and it was decided that this would take place on our regular meeting night in February. A letter was written to Mr. Sumner to this effect.

Because of our need for a projectionist at different times, Dave Kimpton - VE3AVS then volunteered to take the course available at the Public Library.

The next item of business was a very lengthy discussion on the new proposed licensing schedule for Canada. This was then voted on and it was almost unanimously rejected.

Following this was a discussion on the rearranging of our dues system, which was left for a final decision at our Annual Meeting.

At this time, correspondence was read which had been sent to the Club by VE3COE (*S.J. Kubien of 86 Clinton St. Hamilton*) concerning EMO Communications.

It was decided to send a letter to Mr. Art Widnal arranging a meeting to see how we, as radio amateurs, could best fit into his programme. This was moved by Don Hudson - VE3DZJ and seconded by Stan Stanford - VE3EEC.

The meeting was then closed by Roy Lindenhoff - VE3EEG and seconded by Jack Read - VE3ECG at 10:20.

We then retired for Coffee & Doughnuts.
